

**Teacher Elena Nikolaevna Plaksina,
School # 98,
Krasnodar.**

**Year 7.
Module 8. Lesson 1.**

Topic: Green Issues. Save the Earth.

First assignment. In your notebooks write a vocabulary with following words:

- Air, water, soil, pollution, polluted, environment, acid rain, toxic fumes, waste, plastic, a factory, a plant, a power station, industry, to die, dying, species, loss of natural habitats, to land, to gather, gathered, to emit, atmosphere, oxygen, sleet, a stream, solar, to wipe out, poison, to poison, to cause, damage, to damage, harm, to harm, harmful.

Second assignment. Do ex. 2 p.76-77 SB. Translate the text.

Third assignment. Try to answer these questions:

- 1/Why is our environment in danger?
- 2/What is air pollution?
- 3/What is water pollution?
- 4/What is soil pollution?
- 5/What is acid rain?
- 6/Why are plants and animals species dying?

Fourth assignment. Remember Present Perfect and Present Continuous Tenses. What actions do they denote? Learn a new tense, joining both Present Perfect and Present Continuous. Read the rule SB p.GR 7

have/has+V₃

am/is/are+V_{ing}

Home Work:

- read and learn by heart the words from your vocabulary;
- make notes of the rule SB p.GR 7

Our lesson is over! Good bye, friends!

Thanks for your
attention!
Bon chance!
